GLOBAL TECHNICAL DIRECTOR

Department:	Creative Arts Ministry
Location:	Cornwall Church, Bellingham, WA
Supported By:	Creative Pastor/Director
Position Type:	Fulltime 40 hours (Saturday and Sunday)

Position Summary:
As the Technical Director, your primary role is to support the church's mission and vision through the Production Team, operating under the direction of the Worship + Production Director. Your responsibilities include collaborating with the Production Team to program, install, and maintain production equipment across all campuses, and video venue community sites. On weekends, you will be present on-site for production during worship services. Additionally, you will oversee and manage technical staff and interns, handle technical aspects of the Online Campus, and ensure seamless execution of sound, video, and lighting production for Cornwall Church's weekend services and events.

About:
Join Cornwall Church in Bellingham, Washington, located in the beautiful Pacific Northwest. At Cornwall we are passionate about helping people find and follow Jesus. Bellingham was recently voted #53 on the list of "Best Places to Live in the USA" with access to the Pacific Ocean and majestic mountains a 1-hour drive away for a wide range of recreational activities from sea to ski!

Key Responsibilities:
- Lead the production teams at Cornwall Church and maintain a high-level experience within a distraction-free, Holy Spirit lead environment in person and online.

- Provide leadership and support to Campus Technical Directors that will include regular 1-to-1 weekly meetings and guiding professional and personal development of your team members.

- Build tech team and volunteer core teams by cultivating unity through church vision, values, and a life that points to Jesus.

- Collaborate with the Creative Arts team and specifically the Worship Director to execute weekend worship service that help people take their next step with Jesus.

- Drive the enhancement of current production and operational standards, optimize systems and execution of audio production, and lead the exploration of innovative approaches for the production team to craft impactful and purposeful productions.

- Point of contact for ministries needing production support

Key Responsibilities: (continued)

- Program lighting consoles and ProPresenter as needed

- Manage a centralized inventory of Production equipment

- Manage and maintain a regular maintenance schedule

- Execute projects on production systems

- Responsible for managing all live and online production systems and platforms.

- Provides production support for holiday services and run-throughs including Christmas, Easter, Refuge Worship Nights, The Global Leadership Summit, In-house conferences, funerals and more

- Train volunteers to operate systems

- Oversee the Tech Budget

- Confidentiality – keeping shared personal or leadership-level details in strict confidence.

- Attend bi-weekly All Staff Meetings

- Represent the "One Church" vision of Cornwall by being available to help local churches with technical issues or requests.

- Agreement with the vision, strategy, and direction of Cornwall Church; and as a staff person in agreement with and active participant in our ministry strategy, staff values, and staff expectations as primarily outlined in the Cornwall Church Employee Personnel Policies, Guidelines and Procedures Handbook.

Knowledge, Skills, and Experience Required:
- Demonstrates a desire to continually learn and has a teachable heart

- Strong organization and leadership skills

- 5+ years of experience in a live production role, leading teams

- Audio: Working knowledge of Dante Audio, Allan and Heath Audio and small venue Soundcraft Consoles

- Video: Working knowledge of Ross video switchers and SDI video workflows

- Lighting: Experience with multi universe DMX and IP based lighting, GrandMA and Jans Vista with multi universe experience a plus

- Basic understanding of rigging

Knowledge, Skills, and Experience Required: (continued)

- An understanding of Apple computer products and complimentary software including ProPresenter.

- Ability to train others on the proper operation of AVL systems

- Communicate accurately with multiple parties during an issue

- Personable and understands the value of relationships in the Church
